## Recycle More Plastics

This scheme supports local environment charity St Nicks Remember, we will all save more resources refusing unnecessary single use items in the first place.

Any brand flexible tea packaging

Any brand flexible cheese packaging

Clean aluminium foil

Any candle waste including wax melts and glass jars

Any charging leads, power cords and mains cables.

Any brand biscuit, cake bar, cracker wrapper & multipacks inc. Mini Cheddars

The schemes are very specific about what can be recycled. If the material you have is not listed please do not include it, please ensure all materials are clean and dry.

You can drop these materials off at St Nicks during our specifically staffed sessions, alternatively you can drop them off at one of our public drop off locations. Further information on these locations, and the mailing list are on our website: <a href="https://stnicks.org.uk/make-a-difference/our-recycling-service/support-us-by-recycling-more/">https://stnicks.org.uk/make-a-difference/our-recycling-service/support-us-by-recycling-more/</a>
